Troubleshooting

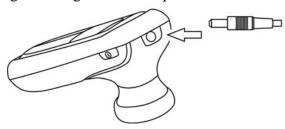

## Before you begin

Take a moment before you get started to familiarize yourself with your new HS6101 Headset Headset.

## **Charge your Headset's Battery**

1. Plug the charger into the top of the headset.

When the battery is charging

The red indicator light may take up to 1 minute for the light to turn on. When the headset's battery is fully charged (> 2 hours), the red indicator turns off.

2. Unplug the charger from the headset.

NOTE: The headset can not work normally when charging

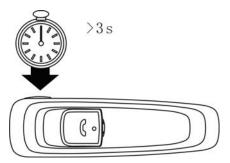

#### Start Bluetooth feature

On your phone

Your phone's Bluetooth feature is off by default. To use your headset, turn on the Bluetooth feature in your phone.

NOTE: These steps are for most phones. For other phones you're your phone's user's guide.

### Turning on and off

To turn your headset on, press and hold the Power Button until the indicator light flashes. Then, release the button.

To turn your headset off, press and hold the Power Button until the indicator light flashes and then turns off.

### Pair your Headset

First use:

1. Press the Power Button for 3 seconds, the blue/red indicator flash in sequence until the headset pair with your phone;

- 2. Choose the headset "HS6101";
- 3. Enter the Bluetooth password "0000" to pair and connect the headset to your phone, and press "ok".

When pairing is successful, the blue indicator light flashes per 3 seconds and beeps.

4. Connect headset with phone.

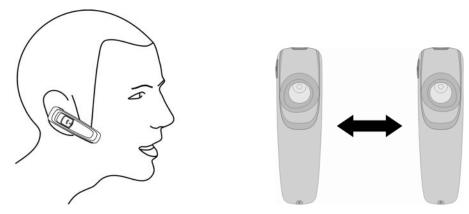

NOTE: These steps are for most phones. For other phones, see your phone's user's guide.

After you have successfully paired your phone and headset, you do not need to repeat these initial setup steps each time you use the headset.

### Using your HS6101

Your phone and headset are now paired and ready to make and receive calls. To confirm they are operating properly, make a call:

1. Place the headset over your ear. See "Wearing the Headset".

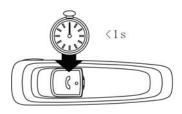

- 2. On your phone, dial the number you want to call and Press the Send key.
- 3. If your phone and headset are successfully paired, you hear ringing on the headset.

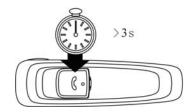

To save battery power, turn off the headset when you don't use it for an extended time by sliding the switch towards the charging plug.

## Making calls

Tap MFB Receive/ End Voice Dial

Reject a call Redial last call

NOTE: HS6101 supports voice dial, Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.

## **Indicator lights**

The indicator light provides information about your headset status. On a call

### Standby

## Low battery

Note: After 5 minutes of inactivity, the light stops flashing to conserve power, but the headset remains in standby mode.

### **Audio tones**

The audio tones provide information about your headset status.

Audio Tones	Headset Status
Single high tone when pressing volume button	Volume at minimum or maximum
Audio indication	Redid last call
Five rapid high tones repeated every 60 sec.	Low battery
Ring tone	Incoming call
Single high tone	Pairing confirmation
Single high tone	End call
Single low tone	Voice activation
Audio indication	Headset turn on, turn off

### **Troubleshooting**

If you cannot connect the headset to your phone, do as follows:

(1) Ensure that the headset is switched on, charged.

- (2) Ensure that the headset is paired with your phone.
- (3) Ensure that the Bluetooth feature is activated on your phone.

Please detailed proceed as described in the user guide of your phone.

(4) Ensure that the headset is within 10 meters of your phone and that there are no obstruction between the headset and the phone, such as walls or other electronic devices.
